

PRATEEK RASTOGI

Senior Software Engineer

prateek.rastogi@pm.me | +91-9085666650 | [5 Billion Downloads](#)

SUMMARY

IIT Guwahati CSE grad with a decade of experience spanning startups and global enterprises. Expert in building **agentic AI workflows**, scaling massive user bases, and leading multi-disciplinary engineering teams. Focused on delivering high-performance, **cloud-agnostic architectures** that bridge the gap between complex engineering and business goals. Active **OSS** contributor with 1.5B+/yr package fetches. Specialized in **full-stack development**, AI systems, and **enterprise-scale technologies**.

WORK EXPERIENCE

Senior Software Engineer, IVY [London, United Kingdom] April 2024 – Present

- Crafted AI/ML integrations using LLMs, RAG, Voice Agents, and n8n pipelines.
- Developed full-stack AI systems leveraging AI-native tooling and agentic workflows.

Expert – Digitization & IT, INDORAMA [Fergana, Uzbekistan] Nov 2023 – Mar 2024

- Rolled out SAP FI, MM, and PP modules in partnership with EY.
- Structured an electronic document management system and biometric face recognition system tailored to organizational needs.

Founding Engineer, FEMZRD [Dover, United States] Mar 2019 – Oct 2023

- Built HIPAA-compliant, cloud-agnostic healthcare systems using microservices, event-driven architecture, and FHIR-based data exchange.
- Owned architecture, roadmaps, and stakeholder alignment to deliver scalable, compliant EHR integrations and adjacent healthcare systems.

Manager Level 2, TIMES INTERNET [Noida, India] Nov 2017 – Feb 2019

- Steered two Agile teams (12 engineers), while being 80% hands-on, to launch ETPrime platform, scaling up to 84M+ users within the first year.
- Devised sub-100ms end-to-end application performance via advanced routing, rendering, edge compute, and caching.

Full-Stack Developer, HOUSE OF QUOTES [Bengaluru, India] Aug 2016 – Oct 2017

- Joined consert, a tech startup recommending live music videos to 10K+ users in TikTok style fashion.
- Orchestrated MVVM and MVC nativity in multi-datcentre Cloudflare FaaS edge app involving GraphQL, PWA, and SOA.

Software Engineer I, FICO [Bengaluru, India] Jun 2014 – Jul 2016

- Architected a microservices-based BI platform, engulfing use cases belonging from fintech, insurance, healthcare, to credit approval.
- Integrated our proprietary app with vendors PaaS, CaaS, and IaaS environments, following data best practices and compliance regulations.

Intern, UMONS [Mons, Belgium] May 2013 – Jul 2013

- Tasked with mining R CRAN repository for source code ecological EDA, utilizing big data ETL and ELT processing.

EDUCATION

B.Tech, IIT Guwahati
Computer Science and Engineering

2010 – 2014

KEY SKILLS

- AI
- Frontend
- App
- DevOps
- SDLC
- Stakeholder & Product Alignment
- Technical Leadership
- Performance Optimization
- ML
- Backend
- Data
- Cloud
- Tools
- Scrum
- Security & Compliance
- Observability

CORE EXPERTISE

Languages

- JavaScript
- TypeScript
- JSX
- JSON
- Java
- C#
- Python
- R
- Go

Runtime

- Node.js
- JDK
- .NET

CLI

- Git
- npm
- uv
- NuGet
- maven

Data Platforms

- MongoDB
- Neo4j
- Cassandra
- PostgreSQL
- Cosmos DB
- Kafka
- Redis

Agile

- Jira
- Confluence
- Rally
- M365

Frontend+App

- React
- React Native
- Expo
- Flutter
- Ant Design
- Redux
- Gatsby
- Next.js
- Angular
- Nuxt
- WebExtensions
- Workbox
- Cypress
- Jest
- Vitest
- Vite
- Webpack

Cloud

- CNCF
- AWS
- Google Cloud
- Microsoft Azure
- SAP S4/HANA

Big Data

- Delta Lake
- NiFi
- Airflow
- Celery
- Flink
- Spark
- ELK

Backend

- Spring
- Hibernate
- Guava
- TestNG
- Selenium
- Jenkins
- ASP .NET
- xUnit
- FastAPI
- Django
- pytest
- Ruff
- ty
- RxJS
- Ramda
- Lodash
- Strapi
- NestJS
- Express
- standardJS

DevOps

- Kubernetes
- Helm
- Knative
- Docker
- Jenkins
- Terraform

Observability

- Prometheus
- Grafana

AI+ML

- NumPy
- pandas
- JupyterLab
- PyTorch
- TensorFlow
- Kubeflow
- MLflow
- LLM
- vLLM
- Ollama
- LangGraph
- crewai
- Milvus
- RAG
- MCP
- A2A
- AutoGluon

IDE

- Visual Studio Code
- Chrome DevTools
- WebStorm
- Eclipse
- Code::Blocks
- IntelliJ IDEA
- Visual Studio
- Antigravity
- Cursor
- Claude Code
- Codex
